Young Researchers at TU Darmstadt

2nd Young Investigator Appreciation Day

- Science Communication -

On Tuesday, 21st of May 2024, 3:30 pm
at Georg-Christoph-Lichtenberg-Haus

Dear Young Investigators

Ingenium, the university's graduate organisation for early career researchers (ECR), invites you to the **2nd Young Investigator Appreciation Day 2024** at TU Darmstadt to honour your excellent work and to enable you to network with other young investigators and postdocs from different research disciplines of TU Darmstadt and its Rhine-Main partner universities.

The event will be opened by Prof. Dr. Franziska Lang, Vice President for Academic Careers, followed by an **Appointment Ceremony for the Athene Young Investigators (AYI)**, who joined the AYI-Programme – TU Darmstadt's own independent junior research group leader-programme – in 2024.

This will be followed by an exchange on what is needed to effectively communicate scientific knowledge to the public. We welcome as guests **Prof. Dr. Nina Janich** (German Studies and Applied Linguistics at the TUDa), expert in science communication research, TUDa's Chief Communication Officer **Dr. Patrick Honecker**, and a **journalist** by profession with great expertise in communicating scientific results through different types of media. You are welcome to discuss with them and ask questions!

Finally, the **informal Get Together** will give you the opportunity to network with other participants.

We cordially invite you to an inspiring **Young Investigator Appreciation Day 2024** at TU Darmstadt!

Prof. Dr. Franziska Lang
Vice President for Academic Careers

Contact: *Dr. Yvonne Bachmann*
